learn more about
FOSA

INNOVATIVE PATENTED TECHNOLOGY

FEATURES

THE TURTLE

Cordless and smart system

- One-touch air extraction, stops automatically
- Use without the need to hold or monitor the TURTLE
- LED indicator
- Efficient vacuuming
- Patented system

FEATURES

CONTAINER

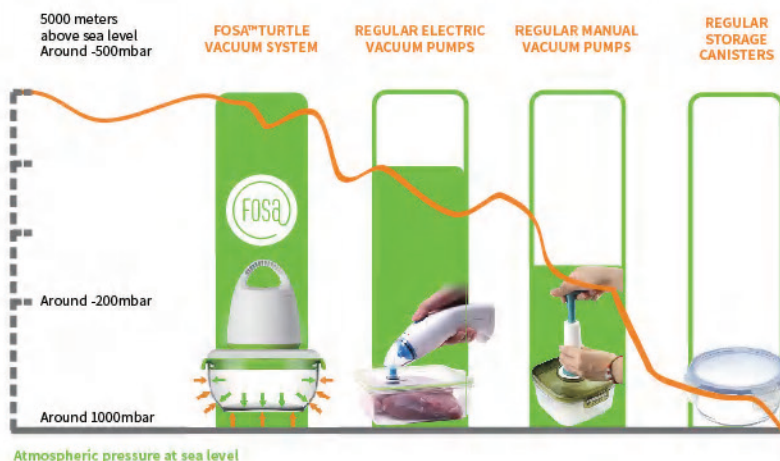

- BPA-free
- Dishwasher-safe (without the lid)
- LFGB/FDA certification

The TURTLE offers real advantages, not only through its design and ergonomics, but also in its ease of use. It allows containers to be vacuumed in a single step:

Position the TURTLE on top of the container lid and press the 'START' button. Once the vacuuming is complete, the TURTLE stops automatically.

Keep the Freshness of Your Food Longer

Ideal for freshness

To preserve freshness, FOSA brings you the best solution.

STOP WASTING FOOD

KEEP THE FRESHNESS MUCH LONGER

How to preserve the freshness of your food longer?

Ideal for storage

Stackable for perfect organization in the kitchen.

Ideal for preserving food

Stop mold and drastically slow down the growth of bacteria. The right partner for guarding food from spoiling.

Ideal for culinary preparation

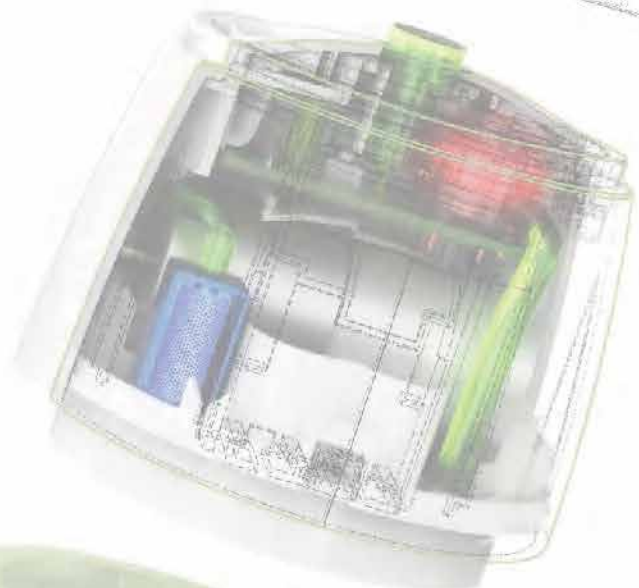

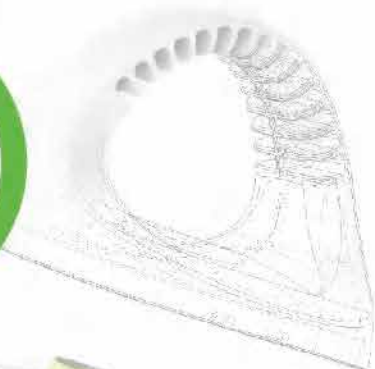

Speed up the process for the preparation of marinades thanks to the FOSA system.

Ideal for rice

Immerse your rice in water with the help of FOSA vacuum technology. Rice will absorb more water easier and faster.

INNOVATIVE PATENTED TECHNOLOGY

Stylish and user-friendly interface

With its technological patents,
FOSA will give consumers
a new fun experience of vacuuming.
"Air and humidity are the enemies of freshness",
FOSA vacuum containers instantly protect your
food from oxidation, and prolong their freshness.

EXTRACTS AIR / MINIMIZES THE GROWTH OF BACTERIA.
MAINTAIN NUTRIENTS AND FOOD TEXTURE.

1

First Step
Push
the button

One-touch operation

Place the TURTLE on the FOSA™ lid,
Press the green "Start" button once,
The TURTLE now removes air from the container.

2

Second Step
Automatic
STOP function

Automatic "POP-UP" function

TURTLE stops automatically
when the extraction process is completed.
The LED indicator light will be on until
the end of the extraction process.

PRACTICAL

EASY

AUTOMATIC

EFFICIENT

3

Third Step
One push
to "release"

Release

Before opening the FOSA™ container,
Just press the green button on the lid.

TURTLE

Compatible with all FOSA products

USER-FRIENDLY
It works by pressing only one button

All FOSA containers, bags, glass bowls and glass bottle
are compatible with **OUR TURTLE**

THICK GLASS JUG

Glass jug with vertical lines pattern enables a safe grip ; Thick glass allows high pressure resistant

1.2L*1

SKU:JJ11201
EAN:8437015791739

Lead-free glass with a slender design.
Fits in the refrigerator door and locks out odor.

HOW TO USE

Step1

Pour juice into the glass jug. Set the lid on top and press down firmly. Press the "START" button once, and the TURTLE will start pumping air out of the glass jug.

Step2

When the "START" button light is on, and the TURTLE can pull up the glass jug easily that means the TURTLE is operating. The TURTLE will pop-up automatically when the vacuum program is finished.

Open the lid

Press the "RELEASE" button at the center of the lid to let air goes in the glass jug in order to open the lid.
